STAGE: LIVE PRODUCTION SAAS (BERAXIS.ONLINE)

BERAXIS: The AI-Powered Cloud ERP, CRM & 25.8M+ Lead Suite

Unifying 28+ Enterprise ERP & CRM Modules, Instant AI Industry Provisioning, and a Built-In 25.8M+ Verified B2B Leads Pool at 90% Lower Cost Than Legacy Suites.

EXECUTIVE FUNDRAISING SUMMARY (INVESTOR BLURB)

Beraxis (beraxis.online) is a live, AI-powered Cloud ERP & CRM SaaS suite unifying 28+ enterprise modules—including Accounting, CRM, Inventory, POS, HR/Payroll, Manufacturing, and a built-in 25.8M+ B2B Verified Leads Pool—at up to 90% lower cost than Odoo, Salesforce, and NetSuite. We are raising $500,000 in Seed capital (closing within 3-6 months) to accelerate global PLG user acquisition, expand our Antigravity AI Copilot, and scale our multi-tenant cloud ERP infrastructure.

The Problem: Global SMBs Are Crushed by SaaS Sprawl & Cost

Over 330M+ global SMBs & mid-market companies are forced to choose between fragmented tools or $50,000+ legacy ERPs.

$1,500 - $4,000 / mo wasted

1. Severe SaaS Fragmentation

Businesses stitch together 8-12 disconnected tools (QuickBooks for accounting, HubSpot for CRM, Apollo for leads, Shopify POS, Gusto for payroll), causing data silos and manual reconciliation.

$35 - $150+ per user / month

2. Predatory Per-User ERP Pricing

Legacy ERP/CRM vendors (Salesforce, NetSuite, Odoo Enterprise, SAP) charge steep per-seat fees plus mandatory implementation consultants costing $10,000 to $100,000+.

Empty CRM Pipelines

3. Zero Built-In B2B Lead Generation

Traditional CRMs are empty databases. New businesses buy a CRM and still have no customers—forcing them to pay $99-$299/mo extra for external B2B lead databases.

3 to 6 Months Setup Delay

4. Months-Long Complex ERP Setup

Conventional ERPs require weeks of manual chart-of-accounts setup, module selection, and IT configuration before a single invoice or sale can be processed.

The Solution: Unified AI-Powered Cloud ERP, CRM & Lead Suite

Beraxis replaces 10+ fragmented subscriptions with a single unified, multi-tenant Cloud ERP & CRM workspace.

Current Market Opportunity: $181B+ Converging ERP & CRM Market

Beraxis sits at the intersection of three massive, high-growth enterprise software markets.

1. Global Cloud ERP Market

12.1% CAGR

$78.4B (2025) -> $172.7B (2032)

Driven by global SMBs migrating off spreadsheets and legacy on-prem ERPs to AI-automated Cloud ERP suites.

2. Global CRM Software Market

12.3% CAGR

$91.4B (2025) -> $163.2B (2030)

Fastest-growing segment is AI-assisted CRM with unified customer data and automated sales workflows.

3. B2B Sales Intelligence & Lead Data

14.5% CAGR

$11.2B (2025) -> $24.8B (2031)

Every B2B business needs verified prospect data; Beraxis embeds 25.8M+ leads natively inside the ERP/CRM.

Why Now? 4 Macro Shifts Driving Rapid Cloud ERP & CRM Adoption

The convergence of AI automation, SaaS cost consolidation, and global SMB digitization creates a historic window.

1

1. The Great SaaS Consolidation

CFOs and SMB owners are actively cutting 5-10 separate SaaS subscriptions in favor of unified Cloud ERP & CRM suites that reduce software TCO by 70-90%.

2

2. Shift from Static ERP to AI-Powered ERP

Legacy ERPs are passive forms. Modern businesses demand AI copilots that auto-configure industry workflows, forecast cashflow, and qualify CRM leads.

3

3. Built-In B2B Data Beats Empty Software

Software alone is commoditized; verified B2B data + ERP/CRM execution is the new moat. Bundling 25.8M+ leads inside CRM eliminates cold-start churn.

4

4. Emerging & Global SMB Cloud Wave

Millions of SMEs across North America, Europe, MENA, and South Asia are adopting cloud POS, e-Invoicing, and multi-currency ERP for the first time.
