

NEXT-GEN AI ERP & CRM PLATFORM

The All-In-One Intelligent Operating System for Growing Enterprises

Unified CRM • Automated Accounting & OCR • Predictive Inventory • HRMS • Native Growth Suite

Why Traditional Software is Slowing Your Business Down

Eliminate the hidden costs of disconnected spreadsheets and legacy ERP systems

The Old Way: Fragmented & Slow	The Next-Gen Way: Unified & Autonomous
■ Multiple Disconnected Subscriptions: Paying for CRM, Invoicing, Inventory, and Payroll separately. ■ Hours of Manual Data Re-Entry: Manually typing supplier bills, invoices, and stock counts. ■ Delayed Decision Making: Waiting days for accountants or ops teams to compile monthly reports. ■ Costly 6-Month Implementations: Legacy ERPs (Odoo, SAP) demand huge consulting fees. ■ Lost Sales Opportunities: Leads slip through cracks without automated scoring or follow-up.	■ 100% Unified Business Core: Sales, Finance, Warehouse, and HR live in one synchronized platform. ■ Instant AI OCR Ingestion: Drop receipt/bill PDFs and auto-create ledger entries in 3 seconds. ■ Live Real-Time Insights: Instant cash flow, revenue tracking, and inventory health metrics. ■ Live in 15 Minutes: Zero-friction setup with 1-click data import and free migration. ■ AI Lead Scoring & Automated CRM: Predicts deal win probabilities and triggers automated tasks.

Live Product Interface: Built for Speed & Simplicity

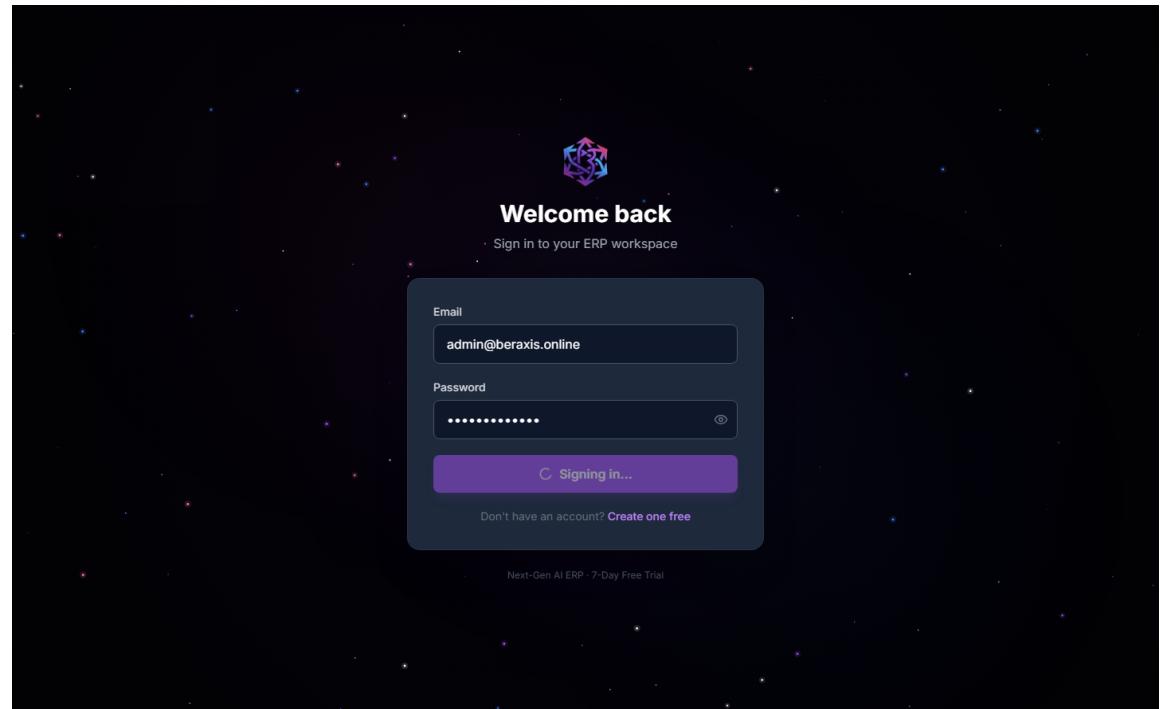

High-performance Next.js workspace designed for effortless daily operation

Designed for Modern Teams:

- **Zero Learning Curve:** Clean, clutter-free UI that employees master on Day 1.
- **Instant Cross-Module Sync:** When a Sales Order is confirmed, inventory reserves automatically and the draft invoice is created.
- **Enterprise Role Security:** Strict granular permissions ensure employees only access their assigned modules.

Key Modules at Your Fingertips:

1. CRM & Deals Pipeline
2. Invoicing & Ledger Books
3. Warehouse & Stock Movements
4. HRMS, Leaves & Payroll

Module Spotlight: Intelligent CRM & Automated Accounting

How our AI features save your team 10+ hours every week

■ Intelligent CRM & Sales Module	■ Automated Accounting & OCR Billing
• Visual Kanban Pipeline: Drag-and-drop deals across customized stages from lead to closed-won. • AI Lead Scoring: Proprietary algorithm analyzes deal size, engagement patterns, and conversion probability. • Email Sentiment Analysis: Identifies customer frustration early to prevent lost accounts. • 1-Click Quotes to Sales Orders: Convert approved proposals into confirmed orders instantly.	• Instant OCR Invoice Scanner: Upload supplier PDF bills or receipts; AI auto-fills line items, tax, and totals in seconds. • Automated Bank Reconciliation: Matches bank statement feeds with open customer payments. • Double-Entry General Ledger: Compliant Chart of Accounts, P&L, Balance Sheet, and Tax reports. • Automated Payment Reminders: Get paid faster with auto-triggered email follow-ups.

Module Spotlight: Smart Inventory, Manufacturing & HRMS

Complete operational control from factory floor and warehouse to payroll

■ Smart Inventory & MRP (Manufacturing)	■ HRMS, Attendance & Automated Payroll
• Multi-Warehouse Tracking: Real-time visibility across multiple stock locations, stores, and fulfillment hubs. • Predictive Demand Forecasting: AI analyzes historical sales velocity to calculate reorder quantities. • Bill of Materials (BOM): Multi-level manufacturing recipes with automated raw material deduction. • Automated Reorder Triggers: Generates Purchase Orders automatically when stock reaches safety levels.	• Centralized Employee Directory: Secure database for contracts, personal records, and emergency contacts. • Leave & Attendance Tracking: Self-service portal for employees to request vacation and sick days. • Automated Payroll Processing: Generates monthly payroll ledgers and salary slips in one click. • Role-Based User Permissions: Assign department-level access with single sign-on security.

Future-Proof Growth: Built-in Marketing & Outbound Calling

Transforming your ERP into an autonomous customer acquisition machine

1. Multi-Channel Marketing Suite	2. Automated Cold Email Engine	3. AI Cold Calling & Voice Agents
• Centralized marketing campaign manager. • Landing page & lead form generation. • Track ad ROI from Meta, Google, and LinkedIn. • Inbound leads flow directly into CRM.	• Built-in mailbox warmup & sending pools. • AI-written personalized cold outreach sequences. • Automated follow-ups until reply received. • Replaces expensive 3rd-party tools.	• Autonomous AI phone agents dial prospects in seconds. • Conducts natural voice qualification & objection handling. • Books appointments directly onto your calendar. • Optional dedicated human SDR support available.
No More Juggling 10 Tools: Our upcoming outbound suite means you won't need separate subscriptions for Lemlist, Bland AI, or external marketing dashboards.		

Measurable Business ROI: Why the Platform Pays for Itself

Concrete financial and operational returns for a typical 25-person company

Cost Category	Traditional Fragmented Approach	With Our Next-Gen AI ERP	Annual Client Savings
Software Subscriptions (CRM, Books, Inventory, HR)	HubSpot (\$300) + QuickBooks (\$90) + Katana MRP (\$350) + Gusto (\$120) = \$860 / mo	Single Unified ERP Subscription = \$199 / mo	\$7,932 / Year Saved in SaaS fees
Manual Data Entry & Invoicing	15 hours/week spent typing receipts, copying numbers to spreadsheets.	Instant OCR scanning and automated bank reconciliation.	\$14,400 / Year Saved in labor efficiency
Prevented Stockouts & Lost Sales	Lost orders due to unpredicted inventory shortages and slow quotes.	AI Demand Forecasting & 1-Click Quote-to-Order conversion.	\$20,000+ / Year Captured in retained revenue
Total Estimated Annual Value: Over \$42,000+ per year in direct cost savings and efficiency gains for a growing mid-sized business.			

Get Started Today: 100% Zero-Risk Onboarding

We handle the transition so you experience immediate results without business disruption

1. 14-Day Free Access	2. Free Data Concierge	3. 15-Minute Jumpstart	4. Dedicated Support
Test all modules (Sales, Books, Inventory, HR) with full team access. No credit card required.	Send us your Excel sheets or Odoo exports. Our engineering team formats and loads your records for free.	Follow our 4-step quickstart checklist or load demo data to experience immediate AI workflows.	Direct WhatsApp & Slack channel with our product specialists for immediate onboarding help.
