

30-DAY FAST-TRACK USER ACQUISITION & ONBOARDING PLAYBOOK

A Practical Field Manual for Sales, Marketing, and Customer Success Teams

1. Executive Campaign Strategy & 30-Day Targets

This playbook outlines the aggressive 30-day sprint to acquire, activate, and retain maximum users for our **Next-Gen AI ERP & CRM Platform**. Our core value proposition is cutting Time-to-Value (TTV) from 3 months (traditional ERPs like Odoo/SAP) to **under 15 minutes** through AI automation, zero-friction setup, and free white-glove data migration.

Metric Goal	30-Day Target	Primary Channel / Mechanism
New Workspace Signups	250+ Companies	Cold Outbound, LinkedIn, Referral Network
D0 Setup Completion	≥ 65%	15-Min In-App Interactive Checklist
White-Glove Migrations	40+ Accounts	Free Excel/Odoo Data Cleanup Concierge
Accountant / IT Partners	10 Active Partners	Free Multi-Client Portal + 20% Rev-Share
PQL to Paid Conversion	15% - 20%	Founding Member Lifetime Pricing Offer

2. 4-Week Execution Roadmap

• Week 1: Direct Network & Founder-Led Outreach

- **Objective:** Land first 50 beta accounts and stress-test onboarding.
- **Action:** Launch personal LinkedIn DMs and WhatsApp outreach to direct network and local SMBs.
- **Offer:** 'Beta Founding Member' — Free lifetime onboarding + 1,000 bonus AI OCR credits.

• Week 2: 'Escape Spreadsheet & Odoo Hell' Migration Blitz

- **Objective:** Target frustrated Excel and legacy ERP users.
- **Action:** Deploy cold emails and outreach focused on our *Free White-Glove Data Migration* service.
- **Lead Magnet:** Free 2026 SME Cash Flow & Inventory Optimization Template.

• Week 3: Channel Partner Flywheel (Accountants & IT Agencies)

- **Objective:** Build 1-to-many distribution.
- **Action:** Pitch local bookkeeping firms and fractional CFOs. Offer them our multi-tenant accounting dashboard.
- **Incentive:** 20% recurring lifetime commission on every client they bring.

• Week 4: Urgency Push & Scarcity Closing

- **Objective:** Convert active free trials and PQLs to paid subscribers.
- **Action:** Host 20-minute live demo webinar; send 'Last Chance for Founding Pricing' email triggers.

3. Future Growth Levers: Built-in AI Marketing, Cold Email & AI Cold Calling

Unlike traditional ERPs that only record existing operations, our platform is expanding into an **Autonomous Revenue Generation Engine** that brings in new business for our clients:

- 1. Integrated Multi-Channel Marketing Suite:** Manage lead generation campaigns, landing pages, and social tracking directly inside the CRM.
- 2. Automated Cold Email Outreach Engine:** Built-in email warmup, sequence automation, and AI-personalized copywriting that sends targeted outreach to prospects and tracks replies directly into the Sales Pipeline.
- 3. AI Voice Agent & Autonomous Cold Calling (Add-on / Minimal Fee):** Equip users with AI voice agents that dial inbound leads in seconds, conduct initial qualification calls, book meetings onto the ERP calendar, and log call sentiment transcripts automatically into the lead card.
- 4. Human Support Agent Hybrid Option:** For enterprise clients who prefer human touch, offering dedicated SDR support agents powered by our ERP platform at an affordable monthly fee.

4. Ready-to-Send Sales Scripts & Templates

A. LinkedIn InMail / Direct Message Script (For SMB Owners & Ops Managers)

"Hi {{FirstName}},

Saw that you're scaling operations at {{CompanyName}}. Most business owners I speak with are losing 10+ hours a week jumping between fragmented tools for invoicing, stock tracking, and sales follow-ups.

We built a Next-Gen AI ERP & CRM that automates manual entry with instant receipt/bill OCR, auto-scores sales leads, and predicts inventory re-order dates.

We are offering **free white-glove data migration** this week (our engineering team imports all your existing Excel/Odoo data for you at no charge).

Open to a quick 5-minute look at our interactive demo?"

B. 3-Step Cold Email Sequence

Email 1 (Day 1) — Problem / Solution Pitch

Subject: Tired of manual invoice typing and scattered spreadsheets, {{FirstName}}?

"Hi {{FirstName}},

If your team is still spending hours manually keying in supplier invoices, chasing pipeline updates, or guessing inventory levels, there is a much faster way.

Our AI ERP unifies Sales, Accounting, and Inventory into one clean, ultra-fast workspace:

- **AI OCR Scanner:** Drop any PDF invoice and auto-populate accounting entries.
- **Smart CRM:** Predicts deal close probability and automates follow-ups.
- **Predictive Inventory:** Alerts you before stockouts happen.

You can explore the full platform for 14 days without a credit card: [\[Launch Demo Workspace\]](#)

Best,
{{YourName}}"

Email 2 (Day 4) — Free Migration Concierge Hook

Subject: We will migrate your data for free (this week only)

"Hi {{FirstName}},

The hardest part of switching software is moving customer and inventory records. That's why our tech team will do it for you.

Send us your Excel sheets or Odoo exports, and we'll format and load your entire company dataset within 24 hours.

Claim your free migration slot here: [\[Book Free Migration Session\]](#)"

C. WhatsApp Quick Pitch (High Conversion for Local SMBs)

■ Hey {{FirstName}}, quick update: We just launched an AI-powered ERP & CRM platform that automates sales, inventory, and accounting receipts without the complex setup of Odoo.

■ Try the live demo in 60 seconds: [\[YOUR_URL\]](#)

Reply 'MIGRATE' if you'd like our team to upload your data for free today!"

5. Sales Objection Handling Guide

- **Objection: 'We already use Excel / Google Sheets and it's free.'**

Response: 'Excel is free, but human error and manual data entry cost your team 15+ hours every week. With our AI, you drop invoices and receipts in, and your books and stock balance update automatically.'

- **Objection: 'We looked at Odoo/SAP, but implementation is too long and complex.'**

Response: 'That's exactly why we built this. Odoo takes 3 months of consulting. Our platform runs out of the box in 15 minutes, and our team does the data setup for you for free.'

- **Objection: 'What if we need marketing and cold outbound later?'**

Response: 'Our platform has an upcoming native Cold Email & AI Calling engine, meaning you won't need to purchase third-party tools like Lemlist, Instantly, or Bland AI.'
